GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Philadelphia Clearing House Association on the Currency.

PHILADELPHIA, Dec 3—The Clearing House Association yesterday resolved that the associated banks of Philadelphia after the 1st of January 1879, will decline receiving gold coin for special deposits, but will accept and treat it only as lawful money and will request special gold accounts by notice to liquidate them on the 1st of January.

—Will forbid special exchanges of checks at the clearing house.

—Will pay and receive balances at clearing house either in gold coin or in legal tender notes.

The committee has given special attention to resolution No. 4 of the New York clearing house, agreeing to receive silver legal dollars except special deposits payable in kind, and think it inexpedient to take any action at present in regard to it, and so recommends to the association; regarding silver dollars as below actual value to the gold dollar and that its emission and circulation in large quantity will be productive of manifold evils because it is a lawful dollar and no action looking to discrediting and degrading it is appropriate in its use as money.

The Chicago Wheat Market.

CHICAGO, Dec. 3—The *Times* learns that on Saturday James R. Keene sent from New York a million and a half dollars for the purpose of continuing purchases of wheat here, and that he himself started on another road. The money arrived this morning and he was here last night. Some purchases were made during the day but prices declined a cent and the rally did not occur in the dealings, when there was an advance making the closing price somewhat better than yesterday's.

The Chicago Wheat Corner.

CHICAGO, Dec. 3.—The corner in wheat develops very slowly, the advance of to-day being less than a cent on yesterday's close. James R. Keene, of California, is here, but declines to state his plans regarding the deal. The small operators are entirely in the dark. They have failed to draw from any of the persons supposed to be interested in the corner even the least hint of what the manipulators will do, and it is not improbable that Keene, seeing the heavy receipts undiminished, is considering the propriety of withdrawing for the present, as it is evident that much more money will be required to hold the incoming than was at first calculated. Receipts to-day were 250,000 bushels and shipments 70 000. The average daily receipts have been over 200,000 bushels and if the supply keep up, will make the receipts for December 5 000 000 bushels. There is as yet, however, no sign of weakening in the bull party, and a stampede could easily be made that would result in a material advance.

Speedy Justice.

ST. LOUIS, Dec. 3—A Fort Smith special says that a man named Holland shot a traveler in Little Rock county a few days ago. Pursuit was made and the murderer captured and lynched.

The Kentucky Local War.

LOUISVILLE, Dec. 3—A lull is reported in the Breathitt county war. The murderer has been removed to Lexington. There is nothing to fight about. No further trouble is anticipated.

The Message.

Comments on the president's message by the daily press are not noteworthy.

Death of Bishop Wilmerk.

RICHMOND, Dec 3—Right Rev J P B Wilmer, bishop of the diocese of Louisiana and of Virginia, aged about 65 died suddenly at the St. Charles Hotel at 7 P M yesterday of apoplexy.

Boys Drowned.

A boat containing five boys was upset by the steamer *Pargoud* when backing out from her landing foot of Canal street last night and three of the boys were drowned.

Bank Closed.

CONCORD, N. H, Dec 3—The Penacook Savings Bank at Fisherville has been closed by the bank commissioners. The trouble was brought about by imprudent investments.

The Commercial Convention.

NEW ORLEANS, Dec 3—The commercial convention met to-day. General Cyrus Bussey, chairman, delivered an address of welcome and Governor Nicholls responded. The convention then organized by the election of General Fitz Hugh Lee, of Virginia president, H G Hester, of New Orleans secretary, and a vice-president from each state.

An Unfortunate Accident.

STAUNTON Va., Dec 3—William Lewis, son of ex-U S Senator Lewis was drowned yesterday while fording the Shenandoah River at Port Republic. His colored servant and a pair of horses were also drowned. Senator Lewis was himself crossing the river at the time.

Business Excursion to Mexico.

CHICAGO, Dec 3—An excursion party of Chicago capitalists and manufacturers, themselves, propose leaving here on the steamer for Mexico. Another party leaves Chicago at the same time for Vera Cruz, via New Orleans. The object of the excursion is to promote trade between Mexico and the United States, it being the carrying out of plans hitherto announced and for which the Mexican minister is now laboring. It is said that a large number of merchants will go from here. Shipping samples of their manufactures are to be admitted into Mexico duty free and placed on exhibition in a building provided for the purpose in the city of Mexico.

A Disastrous Storm.

An unusual wind storm yesterday did great damage to the tobacco crop of Hartford county, Conn., by blowing down the sheds in which it was stored. In Maine the storm unroofed the buildings at Solon Fall Brook carrying away Moore & Wilson's carding mill and Rachelloe's tannery.

WASHINGTON CITY.

A Party of Strong Hope.

WASHINGTON, Dec. 3—Members of the central executive committee of the National party have issued an address to the people of the United States, reviewing the rise and progress of the party, and predicting the continuance and the rapid spread of its doctrines, and expressing confidence that the party will elect its candidate for the presidency in 1880 with majorities in congress and in many of the state legislatures. The address denounces the action of the banks speaking through the clearing house association of New York, and says that the contest is not between the Republican and Democratic parties, but between the money power and the people, between bank bills based on untaxed bonds and a good legal tender currency, and that the people have no chance whatever of ever securing their emancipation from industrial slavery through the money power the Republican party or its allies in the Democratic party. An appeal is made for organizations in support of the National party in every state, county, city, town and ward.

The Nationals held a meeting this evening with closed doors. They claim sixteen members of the next congress who will act independently, not joining either party in caucus, and this number, as the balance of power, will enable them to decide the speakership and the clerkship and chairmanships of important committees.

How the Message is Regarded at Washington.

The message is not regarded by any considerable number of persons as a strong document. It is rather a somewhat weak summary of the reports which have been prepared with ability by the heads of departments. Californians with diminished surprise that the president fails to make any expression of his known views concerning Chinese immigration and contents himself with the hackneyed remark that the establishment of diplomatic relations in Washington with the Chinese embassy will doubtless be of advantage to both nations in promoting friendly relations and removing causes of difference. This remark was undoubtedly approved by the Chinese embassy, which, together with their American secretary occupied seats in the diplomatic gallery of the senate yesterday during the reading of the message, but it failed to meet the expectations for which the president's private utterances have apparently afforded an ample basis.

Comments by Ben Hill.

CHICAGO, Dec 3—A Washington special says that Senator Ben Hill in an interview referring to the southern portion of the message said it was an outrage of really criminal proportions. There is he said not the slightest foundation upon which to base the absurd charges of cruelty and violence to the blacks with which people of the south are charged. Hill claims to be thoroughly familiar with the occurrences in South Carolina. He says the experience of the blacks in Georgia is that they are better off under Democratic rule and that the strongest supporters that the Democratic policy has are colored people. Georgia Ben Hill said is practically solid for Democracy for all time to come. Our people would rather be placed in their graves than again be subjected to or affiliated with radicalism in any shape. Commenting further on the hostility of the south to Republicanism Hill said: We like the president; he has expressed kindly feelings towards us and followed them with kindly deeds and our people entertain toward him and his policy nothing but most cordial feelings.

House Measures.

WASHINGTON, Dec 3—The house committee on banking and currency to-day determined to oppose the adoption by the senate of a substitute for house bill to repeal the specie resumption act, both of which were left on the speaker's table at the close of the last session.

The military academy and fortification bills have passed.

Bills Introduced.

WASHINGTON, Dec 3—Luttrell to-day introduced a bill for the improvement of the Sacramento river, also to adjust claims of landowners within the Klamath Indian reservation.

The committee of ways and means held a meeting to-day but transacted no business. In the general interchange of views it appeared that the committee will confine itself principally to current business without considering measures for a change of tariff or kindred legislation.

The First Case.

The first of the Pacific railroad cases—the Union Pacific Co against the United States—was argued to-day in the supreme court. Among the questions raised is what legally constitutes the net earnings of a railway company?

Blaine's Resolution in Caucus.

WASHINGTON, Dec 3—Blaine's resolution for inquiry into the recent elections in the southern states was considered in caucus to-day by both Republican and Democratic senators. The Republicans decided to press the resolution for adoption after an amendment that the investigation be made by a special committee instead of the judiciary committee. The Republicans also decided to offer soon a resolution declaring the entire validity of the constitutional amendments and asserting the propriety of enforcing them by appropriate legislation. The Democratic senators decided to take the position that the Blaine resolution should be amended so as to refer to violations of election laws or abridgements of the right of suffrage in both northern and southern states and thus amended to vote for it.

Delayed Nominations.

WASHINGTON, Dec 3—Among the nominations sent to the senate to-day were the following: John S Mosby consul at Hong Kong, Henry S Foote, of Mississippi, superintendent of the New Orleans mint, Harrison Gray Otis of California collector of customs at San Diego, Isaiah Hacker, of Oregon, collector of customs of the southern district of Oregon.

PACIFIC COAST NEWS.

CALIFORNIA

Los Angeles City Election.

LOS ANGELES, Dec 3—In the municipal election here yesterday the Workingmen elected their entire ticket with the exception of three councilmen. Toberman the Workingmen's candidate for mayor, received a majority of 869. The officers elect are Godfrey city attorney, Lichtenberger treasurer, Hamilton tax collector, Builderain, assessor, Dr Widney and W J A Smith, member of the board of education.

Election of Officers.

SAN FRANCISCO, Dec 3—At the annual meeting of the Mexican Mining Co to-day 60 983 shares were represented. The secretary's report showed the receipts of the year to be $81 052 94, disbursements, $80,919 69, overdraft with the Bank of California $7 460 23. The old board and officers were re-elected.

The Bonanza Suit.

In the 12th district court to-day in the case of J H Burke against J C Flood, Pacific Wood Lumber and Flume Co et al to recover $4 000 000 defendants entered a demurrer. No date is yet fixed for the argument.

Fatal Accident.

At Halfmoon Bay, on the 29th inst Rauliro Serpe a native of the Western Islands, was instantly killed by the accidental discharge of a boom gun used to kill whales which he was showing to some friends.

A Determined Suicide.

SACRAMENTO, Dec 3—Antone VanWoolfken's body was found suspended to a tree near Smith's Gardens to-day. The man had been dead several hours. He was a native of Hanover and aged 39. Two broken ropes each with a noose and a broken limb over head, showed that the man had made two attempts to hang himself before he succeeded. He was intemperate in his habits and was temporarily insane when last seen.

Sailed for China—The Insurrection in New Caledonia.

SAN FRANCISCO, Dec 3—The P M S S *City of Tokio* sailed to-day for China and Japan, and the *City of Sydney* arrived from Australia.

News from the colonies is unimportant with the exception of further details of massacres in New Caledonia, new victims to the ferocity of the natives being constantly reported. On the other hand friendly native tribes have formed a combination and disposed themselves in such a manner as to form a line across the island cutting off the rebels from access to doubtful tribes in the northern portion and hemming them in between friendly natives and whites. An encounter had taken place resulting in the defeat of the rebels with the loss of one prominent chief.

The Democracy and the Greenbackers.

[From the Boston Herald (Ind.)]

The more the Democratic party fosters this Greenback lunacy the larger number of votes it must expect to lose in 1880. Its only true policy is to stamp it out at the start and stand by Democratic principles. Secondly, the attitude and behavior of a certain class of people in the south especially in South Carolina who call themselves Democrats is the worst possible thing for the Democratic party because it makes Republican votes in the great free populous and prosperous north. The Democratic dog has allowed the tail to wag it too long. It never can win until the dog wags the tail. In other words the real Democratic leaders—like Bayard, Abbott, Kernan, Lamar, Hampton and Gordon—must lead the party and not be content to sit down in the constitution and wait for it to return from a wild goose chase after idiotic votes.

CONGRESSIONAL.

Senate

WASHINGTON, Dec 3.—The [illegible] submitted a resolution instructing the committee on finance to inquire into the expediency of making trade dollars a legal tender for all debts, public and private, and providing for the suspension of coinage of the standard silver dollar of 412½ grains and the coinage of the same into trade dollars of 420 grains and for such additional coinage of trade dollars as the needs of the country may demand. [illegible]

A large number of appointments made during recess were sent to the senate including the New York custom house nominations and Hillhouse for assistant treasurer.

Beck submitted a resolution that the secretary of the treasury be directed to inform the senate what amount of standard silver coin has been received in payment of customs dues since the beginning of the current fiscal year and whether or not he has applied silver so received in whole or in part to the payment of interest on bonds or notes of the United States and if it has not been so applied to state the reason why, and if it has been applied to that purpose in part only to state what portion has been so used and on what character of obligations. Also that he be directed to inform the senate the amount of interest he has paid on the bonds and notes of the United States since the current fiscal year began and the amount of such interest he has paid in gold and silver coin respectively.

Edmunds—I should like to have the secretary show what kind of silver coin has been used so that we may know if there was subsidiary coin paid.

Thus amended the resolution was agreed to.

At the conclusion of the morning business Matthews called up the Texas Pacific bill.

Matthews argued on the Texas Pacific bill that the government should merely guarantee the payment of interest on the bonds of the Texas Pacific road to the extent of nearly two million dollars per annum. It was manifest that the indemnity to government was perfect and that ultimate loss by government it was rendered impossible, unless it should turn out that after the completion of the road it should not be worth the accrued interest. But such a supposition was not to be entertained. He did not believe the government would be called upon to make advance out of its own treasury. The Texas and Pacific road skirting the southern boundary of the United States would form the base line from which lateral lines would radiate, attracting a new and profitable trade and soon a market would be found for the products of the United States in Mexico. The general influence of such trade over our national interests with Mexico would be powerful. The construction of the Texas and Pacific road would open by legitimate means the northern states of Mexico to industrial colonies. The construction of the Texas Pacific road would result in a saving to the government of more than two million dollars per annum. It was not fair nor just to the present measure to dispose of it upon the summary objection that it was a subsidy. He then spoke of the constitutional power of congress to regulate commerce and said that the Texas Pacific bill should be passed as a matter of justice to the southern states, as the government owed protection to all and demanded obedience alike from all.

Morrill introduced a bill authorizing the secretary of the treasury to issue in exchange for U S notes or coin certificates of deposit of the denomination of ten dollars or any multiple thereof not exceeding $100 bearing interest at the rate of 3 65 per cent per annum and convertible at any time within one year into four per cent. bonds and the money so received shall be applied to the payment of the 5-20 bonds.

House

Senate bills were introduced for the recoinage of the silver trade dollar, the standard silver dollars, the repeal of resumption and appointment of a commission on the yellow fever epidemic.

House then went into committee of the whole on the military academy appropriation bill which appropriates $76 647, $16 000 below appropriation of the current year.

BILLS INTRODUCED

By Cox of New York to give notice of termination of the treaty of 1868 with the North German confederation.

By Harris, of Pennsylvania to abolish the requirement of proof of loyalty as a condition to obtaining pensions for services in the war of 1812.

By Rainey to punish election frauds.

By Chalmers to prevent corruption in elections.

By Durham and Price to make the trade dollar a legal tender.

By Dibrell to make trade dollars and other silver coins a legal tender.

By Hunter to require the secretary of the treasury to receive trade dollars in exchange for legal tender silver dollars.

By Fort for like purpose and to stop the further coinage of trade dollars.

All bills on this subject were on motion of Stephens referred to the committee on coinage of which he is chairman.

By Bentano in relation to the expulsion from Germany of a naturalized American citizen Julius Bauer.

By Springer for the termination of the naturalization treaty with Prussia.

CANADA.

More Grand Doings.

OTTAWA, Dec 2.—Although a drizzling rain continued from early morn until the arrival of the vice regal train the city was full of strangers and citizens of all classes irrespective of creed or nationality who joined in one grand outburst of enthusiasm. The welcome was broad hearty and generous and demonstrated in an unmistakable manner the loyalty of the eastern people. Wellington, Sparks, Rideau and other streets were profusely decorated with evergreens mottoes and bunting. Upon the arrival of the train their excellencies were conducted to the beautifully decorated pavilion by the mayor and city aldermen where an address by the corporation was presented to which the governor general fitly replied. At the conclusion of the speech the governor general and princess were escorted to the vice regal residence. All other ceremonies illumination and torchlight procession have been postponed on account of the storm.

NOVA SCOTIA

Drowned.

HALIFAX, Nov 2—H M S *Oronica* on her passage hence for Bermuda lost a man overboard and a boat's crew of 13 who went to rescue him were all drowned by the capsizing of the boat.

PERSONAL AND GENERAL

Dr Pusey the famous high churchman of Oxford thinks that modern science in England is not coarsely and blasphemously atheistic as it is in Germany.

General Butler is reported to have said in a gush of confidence and candor that he owed his recent defeat to the churches the property owners and the school teachers.

The annual ceremonial of swearing in the lord mayor of London has just been performed in the customary manner. Here the swearing is generally done by the fellow who does not get in.

During no period in the history of this country have such remarkable evidences of national prosperity been furnished as may now be gathered from the statistics of our export and import trade.

The poor devil who tried to kill the king of Spain says he did it as a means to the establishment of a universal republic. This is a fine illustration of the logic of his class on both sides of the Atlantic.

People who chop mincemeat should keep their fingers from under the cleaver. Some people are so dreadfully sensitive that they become worse than seasick when they pick a thumb nail out of their mince pie.

According to the Swiss tables of mortality, just issued 597 persons committed suicide last year in Switzerland which is at the rate of one in every 4 600 inhabitants a greater proportion than obtains in any other European country.

N Y *Mail*: When the government puts silver on a level with greenbacks by making it redeemable in gold the banks will take it as readily as they do greenbacks. All this flurry of indignation against the banks is too absurd for any one to entertain.

A Georgia farmer smeared his hogs with tar to rid them of lice and turned them loose in the woods. At night they did not return to the pen as usual and in the morning he found them stuck together the tar making them adhere in a mass. They might have gone home nevertheless by concert of action but it is not in a hog to harmonize.

And Sherman Comes Also.

[From the Chicago Times.]

And here comes General Sherman expressing the belief that Grant will be the next candidate of the Republican party as Grant is the only man who can bring safety and relief. This is a neat compliment to the administration of Friend Hayes, and it is just the compliment that Hayes officeholders are all indulging. Rutherford himself had better follow his friends into the Grant camp. They may then cease twitting him with imbecility of administration.

Tacoma Herald: We learn that Father Wilber, who was badly bruised about the face and head recently by a noble red man has almost recovered. The Indian was finally captured and placed in the jail and heavily chained but during the night some of his friends on the outside cut a hole through the wall and after filing off his chains, let him free.

Stewart's Skull Found.

[From the New York Evening Mail.]

If Shakspeare permits his grave digger in Hamlet to jest he expects him to "say no more than is set down for him." Any little effort of his own though it makes the unskillful laugh cannot but make the judicious grieve. Oved Sweett should have thought of this at the Fifth Avenue the other night. Booth as Hamlet stood in the gloomy church yard and as the grave digger shoveled bones upon the surface asked "Whose skull is that?" "Stewart's," said the grave digger. "I claim the reward." Some barren number of spectators who heard the "aside" were set on to laugh, but the clown for his sorry fib should have been directed to call at the box office and settle.

The result of the investigations of the yellow fever commission as contained in their report to the public health association is that the only safety is in quarantine.

ROOT OF SOCIALISM.

To a recent number of the *Fortnightly Review* Prof. Henry Fawcett contributes an interesting article on the rapid development of socialism in Germany and the United States. His leading idea is that socialism grows out of the decline of individual character and power, and the building up of the power of the state. This is an accurate and profound generalization. The basis of it may be found in Mill's *Essay on Liberty*, published many years ago, in which the tendency of political society, in some of its leading modern phases, to suppress or dwarf the individual man and to produce uniform and colorless types of character, was clearly noted. The first step is to lose independence and robustness of personal character, and the next is to accept the state as the power through which all things are to be organized, controlled, arrayed and paid. The *Review* writer attributes the spread of this idea in Germany to the development of bureaucratic principles, the aim at political unity and the consequences of a universal and compulsory military service. Under operation of these causes the German people are beginning to believe that the state is omnipotent and should be omnipresent. In explaining how it is that socialism makes headway in the United States Prof. Fawcett thinks it may be shown that the maintenance of the system of protection, which meddles with nearly every industry of the country, habituates the people to state interference and makes them ready recipients of socialistic ideas. He might have added with even more force that our legislation on the currency has produced still more striking results in the same direction. The example which was set by government when it enabled every man to pay his debts with pieces of paper which were an enforced legal tender is the main source of the financial follies of the time. Under this system government is to provide a man with means to pay his debts, furnish him work to do and good pay, and take care of him generally. Our school system also, under which the state is taking upon itself more and more the work and expense of popular education, is a movement in the same line. The tendency is to rely on the state for everything, and to leave nothing to be wrought by individual effort. It is the great error of modern society to inculcate the doctrine that the people should rely on the state, and that the state can remedy all that is unsatisfactory in their condition.

SUBSIDIES.

Leading journals of the north and east renew their opposition to further railway, steamship and other subsidies. The discussion is revived by the action taken at the recent commercial convention at Chicago, which demanded subsidies for various enterprises, chief among which is the Texas Pacific railway. So united and energetic is the view of the press (except that of the south) against subsidies of every description that it is hardly possible that any of the schemes for which aid is solicited from the public treasury will receive favorable attention in congress. The general objection is that as soon as one enterprise is subsidized a door is opened to numerous others, which will plead the precedent and insist on the equity of treating all alike. And, says the New York *Herald* "there are no resources of taxation which such rapacity would not exhaust if precedents are set which would open the door to claims founded on the principle of equal rights and the impartial treatment of existing localities."

Last session the Texas Pacific used its influence and power against the Northern Pacific, to the extent of insisting that the latter should have no renewal of its grant unless it would join in the effort to secure for the former its great subsidy of government bonds. This condition was not accepted because it was an unequal one. The Northern Pacific was asking no direct subsidy, and it did not consider it wise or just to prejudice its own case by making common cause with the Texas Pacific. Since then the Northern Pacific has decided to make no further effort to secure renewal of its grant, preferring to stand on such rights as it may have under its old charter. This will leave the Texas Pacific to make its struggle alone. It is not probable it will succeed.

RUSSIAN VIEWS.

The tone of the Russian press is one of bitter hostility to Great Britain. When it is remembered that the Russian press is under censorship of the government it may well be concluded that the articles of warlike character which are continually appearing in the journals of Moscow and St. Petersburg reflect in no small degree the government's views and purposes. The *Vedomosti* of St. Petersburg, referring to the Afghan difficulty, says that "England, once possessed of Afghanistan, would be impregnable. With that mountain fortress in English hands Russia would not only have to abandon all hopes of ever driving the English out of India, but might actually find her eastern flank threatened by those who are her worst enemies in the west. Russia's future depends upon the Afghan-English war being turned to account in more quarters than one by her statesmen." This is very significant, but the annexed from *Golos* is not less so. "Russia," that paper remarks, "may possibly keep quiet while the English remain at Quettah. But if the English advance in the direction of Ghuznee and Candahar, things assume a very different complexion. If the occupation of these points renders India more defensible, it likewise facilitates an attack upon Russian Turkestan. If the English go to Candahar, there is no doubt that the Afghan question will lead to further complications. Indeed, such complications are to be desired in the Russian interest."

The banks of Philadelphia agree with those of New York and Boston as to the inferiority of the silver dollar, but do not adopt the same recommendations in regard to it, deeming them as yet premature. Nevertheless the position of the Philadelphia banks is substantially the same as that of the others. Mention by them of the fact of the silver dollar's inferior value is a concession of the whole case. Five-sixths of the commerce of the country is transacted through those cities which have, by the unanimous action of their banks, determined to treat the silver coinage as subsidiary, while doing all in their power to aid resumption. Who, it is asked, will be harmed by the refusal of the banks to take silver except on special deposit? Not the depositor of silver, for he can get as good as he gives. Not the great mass of the community, for they do not deposit, but use their money in the great transactions of life. The position taken by eastern banks in regard to silver is precisely the position which we of the Pacific coast have maintained for above fifteen years in regard to greenbacks.

The silver campaign is renewed already by a proposition in the senate to inquire into the expediency of making the trade dollar a legal tender. About twenty millions of these coins have been manufactured; and though many of them have been sent abroad, they would come back quickly if the legislation of this country should give them a temporary fictitious value. It is well to remember that the trade dollar was never issued by the government. The law has allowed owners of silver bullion to take it to the mint and have it converted into these coins by paying therefor. Government has simply weighed and stamped the bullion, and returned it in the form known as the trade dollar to its owner.

Col. Ingersoll is of opinion that President Hayes has been handsomely treated by his own party; but he sees a little bit of trouble in store for him on certain matters. Ingersoll says: "The president desired to make a change in the New York custom house, and Conkling said 'No.' The president waited until congress adjourned and then made the change. Conkling will go back with the prestige of re election to the senate, and when the question of confirming Mr. Hayes' appointments come up in the senate, he will make the fur fly, or I am much mistaken."

The Republican majority in Illinois on state treasurer, the principal office to be filled at the late election, was 45,181.

Phil. Sheridan Mining Co.

AT A MEETING OF THE DIRECTORS OF THE above Company, held yesterday, a resolution was adopted authorizing the Secretary of the Company to sell twenty thousand shares of the Stock at 20c per share.

The Phil Sheridan Mine is situate on Granite Creek, Grant county, Oregon, about one half mile west, running parallel and in the same mineral belt with the Monumental Silver Mine. Work done and now under way establishes the fact that the mine is rich, extensive and permanent. It is the intention of the Company to prosecute the work with vigor, and as an investment at the present price it offers a rare opportunity.

Certificates of Stock can be obtained at the office of the Company, corner First and Stark sts.

WEDNESDAY MORNING, DEC 4 1878.

CITY.

[illegible] Plans Completed.—The plans for the proposed bridge across the Willamette at [illegible] have just been completed by A. S [illegible] & Son, and can be seen at the store of [illegible] & Son. The whole length of the bridge will be 1,750 feet and 32 feet in breadth. There will be a central roadway of 20 feet for [illegible] and passage ways for foot travelers of [illegible] on each side. The draw is 250 feet [illegible] and will be a very novelty of construction, made so that there will be no danger of [illegible] at the ends, and by a device of Mr. [illegible] so arranged that the engineer can open and close the draw connections at each end without leaving his place at the engine. The draw can be moved by an engine of [illegible] power. The piers are to be of stone, [illegible] 34 feet at the base and 25 at the top. [illegible] of truss from one end to the other. Four spans will be 200 feet each [illegible] the spans 80 feet. It has been estimated by the architects that the bridge can be built with piers filled with concrete for $110,- [illegible] with wooden piers for $100,000.

[illegible] Wanted.—A man named J M [illegible], who is a traveling agent for a [illegible] house, it appears, has got himself into serious trouble. A short time ago Bumgardner forged a note, signing the name of a prominent gentleman of Salem to [illegible]. He came to this city and sold it to the firm of DeLashmutt & Oatman. Bumgardner engaged a berth on the steamship Great Republic. Soon after the note was discovered to be a forgery. A dispatch was sent to Astoria by the firm who [illegible] the paper, but it was received after the steamer had gone. A telegram was sent to San Francisco authorizing the arrest of Bumgardner. An answer was received to the effect that the person so much desired was not a passenger on the Great Republic. He either got off at Astoria or secured the [illegible] for the purpose of misleading the [illegible]. In another column Messrs. DeLashmutt & Oatman offer a reward of $500 for the apprehension of the forger.

[illegible] Montana Missing.—A recent [illegible] exchange says: "No news has been received of the steamship Montana, [illegible] Jacobson, which sailed from this port for Guaymas on the 16th of last September, and it is feared that she has met with some disaster. The vessel is owned by [illegible] Eldridge and Jacobson, and the agents here are Messrs. Sheridan & Scholl. [illegible] of these nor Mr. Blythe, who shipped [illegible] by her for San Felipe, has been able to obtain a single word of information concerning her since she left this port, but hopes are entertained that she will yet be heard from at some point in Lower California or the Colorado river.

Vote of Thanks.—The ladies of the [illegible] Society, at their meeting yesterday, passed a unanimous vote of thanks to the [illegible] of Portland for their generous Thanksgiving offerings to The Home. Such evidence of the public interest in this good work has been most gratifying to those who have it in charge and brightens the prospect for the coming year. A sight of those 16 little ones at their sumptuous dinner would repaid one for any sacrifice.

Big Smoke.—Yesterday afternoon huge [illegible] of smoke were seen to rise from a point some distance beyond the asylum. It was thought for a time that a dwelling was on fire, but afterward that some one was burning brush. We have made inquiry as to the cause of the smoke, but could ascertain nothing definite. It is more than probable some person was burning timber in the vicinity of the asylum.

From Astoria.—From Messrs. Trenchard [illegible], Astoria, we are in receipt of the following dispatch dated Dec. 3, 5 P. M.: [illegible] California, for northern ports, left [illegible] to cross out, but owing to thick weather, cannot tell if she succeeded. [illegible] Strathearne is still outside with a [illegible] aboard, she will come in the first op[illegible]. Bar rough, no wind, rainy.

[illegible] Bonds.—James Duffy, a deck hand on the steamer Ohio, was arrested yesterday, charged with the larceny of a pair of blankets from a fellow deck hand. Duffy was brought before Adams, who held him to await the action of the grand jury in the sum of [illegible]. In default of the required bonds the [illegible] was committed to the county jail.

[illegible] Gospel Meetings.—The meeting [illegible] was one of intense earnestness and [illegible] power. Every seat in the hall was [illegible]. The inquiry and conference meeting which followed the sermon was one long to be remembered. To-night Dr. Lindsley will [illegible] the meeting. Prayer meeting at 12.15 [illegible]. Mass meeting at 7:30 o'clock P. M.

[illegible] a Coat.—Yesterday a man named [illegible] Sorten was brought before Judge Adams on a charge of larceny. Sorten is charged with stealing a coat from the store of S. C. Coggan, No. 65 Front street. The evidence being deemed conclusive, Sorten was bound over to await the action of the grand jury in the sum of $600.

Municipal Election.—The following is the result of the city election held at Salem [illegible]: For mayor, Thomas M. Gatch; [illegible], C. W. Bowie; marshal, J. W. Minto; treasurer, M. L. Chamberlin; councilmen, [illegible] ward, James Coffey; second ward, S. C. [illegible]; third ward, Gaines Fisher; fourth [illegible] F. Mathews.

[illegible].—The steamer S. T. Church, [illegible] aground some days ago on Government Island, below Salem, has been floated. The damage sustained is light [illegible] be repaired. The steamer was [illegible] at Salem yesterday. She will be [illegible] today.

[illegible].—The Women's association of St. [illegible] Chapel will meet this day at three [illegible] the room adjoining the chapel. It is requested that every member be [illegible], as business of importance will be [illegible] them.

Marine Movements.—The steamers Great [illegible] and Geo. W. Elder will sail from San Francisco for Portland next Saturday. The [illegible] Oregon will sail hence Thursday [illegible] freight and passengers.

Fire Again.—A burning flue was the cause for calling out the fire department [illegible] 1 o'clock yesterday morning. An alarm was turned in from Box No 13. No [illegible].

Changed Hands.—We are informed that the [illegible] Enterprise has changed hands, the [illegible] proprietor having sold out to [illegible] & Woods.

[illegible].—The tug Ben Holladay towed up [illegible] the river yesterday a very large [illegible] logs for one of the mills in the upper [illegible] the city.

AMUSEMENTS.

New Market Theater was again filled to overflowing last evening. If possible, a more entertaining programme was rendered than on the opening. The songs were finely rendered and afforded much pleasure and won hearty and deserved plaudits. "Gilmore's Return from Europe," a musical extravaganza, which concluded part first, was immensely enjoyed. The original act, "Old Uncle Jeems," in which appeared Dick Little, Infant Kernands, Pete Devonear and James Grace, was capital and effect was not lost on the audience. Bob Mack's "Hen Frolic" was too good for any one to lose. The Bohees in specialties, introducing their celebrated banjo duet, were remarkably clever. Their songs and dances were the very essence of ease and neatness. "That Wife of Mine," the concluding sketch, was very mirth provoking. An entire change of programme to-night. Do not fail to see these minstrels

PERSONAL.

Col. H. Clay Wood, who has been (until some months ago) assistant adjutant-general of this military department, is at present on a visit to Europe. He expects to return to Washington in a short time. Col. Wood will not return to this coast, as Maj Nickerson has been transferred to this department.

Maj. W. H Bell, who has had charge of the commissary of subsistence of the department of the Columbia for the past eight years, has been ordered to report at Washington. He expects to leave for the capital in about two weeks—or as soon as his successor shall arrive. Maj. Bell will be succeeded by Col. Thomas Sullivan, who is on his way here. Maj. Bell has been stationed on the Pacific coast for the past ten years. During his sojourn in Portland he has made a host of friends whose best wishes for his prosperity will follow him. He is an accomplished and genial gentleman, and his departure will be sincerely regretted in military and social circles.

FERRY-BOAT DISABLED.

Between 12 and 1 o'clock Tuesday the railroad ferry-boat, in landing at the pontoon on the east side, ran by accident under the bow-sprit of a vessel lying at the lower railroad dock. The smokestack coming in contact with the sprit, was knocked down. In falling it struck the whistle in such a way as to open the escape valve, and for half an hour "Ben Holliday's calf" bellowed its distress, attracting hundreds of people to the river front on both sides. It would probably have continued its "bawl" until steam died away had not Mr. Bennett, the scissors-grinder, who happened to be a passenger, mounted the cabin deck with a broom and readjusted the valve. One of the side cabins of the boat was badly damaged by the affair, and the boat will probably be disabled for several days. Captain Jones, the regular pilot, was not on the boat at the time of the accident.

Mr. Van Beurden has opened a suit of show rooms in Church's building, No. 162 First street, up-stairs, and will be happy to have the public inspect his stock and learn his prices.

A FALSE REPORT CORRECTED.

The special committee appointed by the common council on the 21st day of August, 1878, consisting of Messrs. Simon, Opitz and Lambert, to investigate the accounts of the chief of police, and the workings of the police department, have at last made a divided report. It appears that Mr Lambert, who is now anxious to criticise the official acts of every one but himself, has failed to agree with the other members of the committee as to the result of their investigations. Still like Othello thinks he "has done the state some service." There is a majority and a minority report, both of which claim that I have retained money in my possession longer than warranted by the charter. While they scatter and strew some choice flowers in the path of the police commissioners, it is unfortunate that the committee should "thus waste its fragrance upon the desert air," for it is a sweet scented medley of contradictions more odorous than the balm of a thousand flowers. The task of investigation was self assumed, and undertaken with a secret understanding and purpose with some members of this committee that the sittings should be private and secret, and that I should not be allowed to be present. But Mr Simon being younger, and a more modest man than the others, became ashamed of the star chamber arrangements and informed me that he thought I had a right to be present, hear the witnesses and cross examine them if I so desired. This I intended to do, but on the 23d day of August, the day before the committee was appointed, the O'Shea robbery took place in this city and the robbers were at large, and I was then engaged night and day making every possible effort to apprehend the offenders and the entire police force of the city under my direction was so engaged.

On the 2d of September in the afternoon, I met Mr Lambert, and told him that if it was the wish of the committee that I should let the robbers go who were at large I would then commence and settle up my accounts forthwith, but if it was satisfactory to them that I had made arrangements with a number of persons who owed money for taxes and those who owed money for licenses to make a complete settlement from the 1st to the 10th day of October. To this he assented, and said the same was satisfactory, and I parted from him with that understanding. But I learned afterwards that he proceeded secretly with the investigation, in hot haste, as his main object was to injure me, and I afterwards learned he appointed a bailiff by the name of Thomas Gray to go about the city smelling after official delinquency, and to guard the door of the committee room so that no one but the chosen could be present. This Thomas Gray is a man "to fame unknown," and just where Lambert dug him up I do not know. It was evident to my mind that some members of the committee did not want evidence on both sides of any subject before it, and that my presence was especially obnoxious, and accordingly I refrained from interrupting the secret deliberations of the committee. But there are a few facts that I will now present, so that the taxpayers and the public may judge as to whether I have been guilty of any neglect of official duty.

The delinquent tax roll, with a warrant accompanying the same was received on the 22d day of March, 1878, made returnable in sixty days. I at once proceeded to the collection of these taxes as rapidly as I could and in ten days after I commenced collecting taxes I paid over to the city treasurer $1,500, and on June 4th I paid $90 taxes collected. Between June 4th and September 2d I collected, from time to time $894 64½. This last sum of money is the amount the majority report of the committee takes great credit for causing me to pay over to the city treasury. Now, if I had been left alone to carry out my arrangements and made my settlement from the 1st to the 12th of September, ten days later than I did, I should have paid over to the treasury in place of $894 64½, about $1,200 as the difference between the amount I had on hand and this amount was specially promised me. By that time a number of persons wanted to pay me, according to previous promises, and I refused to take the money because I learned that this committee was proceeding secretly with their investigations and contrary to Mr Lambert's agreement with me. I collected, however, all the delinquent taxes but about $500. Had I been let alone I would have collected all but $400 or $500, and for the last twelve years prior to my term of office the delinquent tax list has not been so nearly collected up, by $500. This is a matter of record, yet this councilman with all his wonderful mathematical ability, did not look after any such facts.

It is made my duty by ordinance to see that all licenses are paid, and as there is now between 800 and 1,000 different licenses to look after and collect, amounting to $7,431 a quarter or $29,935 a year, and as there are many changes of persons in business and the licenses are not transferable, it makes my duties difficult and onerous; and the police force under my control has been so limited that I could not detail any officer to attend to this line of business. As a result I had to look after those licenses myself, in connection with my other duties. I would be able some days to collect the money due for license from seven to ten persons in a day, then something would come up requiring my time for three or four days before I could again return to this line of business, and then I would collect again, and so on. At this particular time, together with the O'Shea robbery, it was more than a month before I was able to get round. As I collected the money from time to time I kept it in a sack and gave each one credit on my book, and then I paid over to the city treasurer at one time every dollar I collected for licenses, and made out a memorandum which I gave to the city auditor. This memorandum shows the amount of money paid and the length of time for which each person or firm was entitled to a license. During my term of office I have advanced and paid to the city treasurer over $400 more money than I have received for licenses out of my own pocket. In order that it should not be said that the city was the loser, and should it become necessary I can tell the names of the parties for whom I advanced the money.

But while I was thus endeavoring to do my duty, this committee called several of these persons who had paid me the money for their license to appear before the committee to prove that they had paid me and that I had not paid the money into the city treasury. If I collected money for a license at 1 o'clock in the afternoon, the man who had paid it would be brought before the committee at 9 o'clock the same evening to prove that I got the money and was a defaulter. This bailiff, Gray, followed around on my track so closely in search of licenses that some of the hackmen, liverymen, draymen and saloon men thought he was the real tax collector and that I was his deputy.

This committee, on the authority of Mr. R. L. Durham, auditor, and I suppose upon the great mathematical ability of the chairman of said committee, Noah Lambert, Esq., found an error in the footings of the amount of money collected for fines in city cases for the month of November, 1877, amounting to ten dollars, against me. Now, this I simply deny, and say it is not so, and I am willing to leave it to any accountant that has ability enough to calculate the time it will take the common council to go from the council chamber to Billy Andrus' saloon. *It is a matter of record, and there is no error in the footings.*

Mr. Lambert's report is worthy of some notice. It is a remarkable document, worthy to be framed, photographed, embellished and preserved in the archives of the city, to enlighten all incoming councilmen and future generations.

Some time before the last June election, when candidates were scarce, Mr. Lambert repeatedly came into my office (and, by the way, I think he was one of those whom Capts Allen and Belcher took for the gamblers of whom they testified) and desired me to array the whole police force of the city in favor of his nomination for county treasurer, and urged me to insist on his nomination in preference to Mr Showers. This I told him I could not do, as it would compromise me and would look badly in the eyes of the public for the whole police force to be fighting a man that had only one arm. I also told Mr Lambert that I was personally friendly to him, but that I could not use my official position to force anyone's nomination, but he still seemed to think that such were the duties of the police force, and if I failed to use it for that purpose I was not competent to hold the office of chief of police.

When Mr. Showers was nominated for the office of county treasurer, Mr. Lambert immediately "soured" on the workings of the whole police department, and he immediately determined to have the city charter so amended as to give entire control of the police force to the city council, of which he is a member. Accordingly Mr. Lambert with some other members of the council caused an amended charter to be prepared and taken to Salem and presented to the legislature in the form of a bill. This was introduced in the house by a tall, intelligent gentlemanly appearing member, with due pomp and circumstance, and read by Chief Clerk Whitson with Websterian eloquence, and referred to a committee composed of the delegation from Multnomah county. This committee, after smoking a great many Havana cigars, and drinking a large number of cock tails, carefully examined the proposed amendments and found there was too much water and not whisky enough in the bill to float the great ability that had discovered the defects in the old charter and without making any report upon the bill, the committee consigned it to a quiet oblivion, from which Mr. Lambert is now seeking to resurrect it. In justice to Mr. Lambert it may be said that he has made an honorable effort to relieve the city from the inefficiency of the old charter, as it is well known that he had all the available lobbying material at Salem to invoke the action of the legislature and that at last Mayor Newbury, who sympathized with Mr. Lambert, went to the rescue, well knowing that the legislature is a source of power that is long suffering and easily to be entreated. He embarked, however, in the lost cause with more zeal than discretion.

Mr Lambert has taken some pains to cut out parts of the evidence taken by the committee, and after garbling and segregating it, he inserts a portion of it in his minority report, and among others he mentions and places great stress upon the testimony of Captain Allen, who was removed from the police force for insubordination creating dissensions among the men and for assuming to be chief before his time had come. I will now examine his testimony and see if he has told the truth. As appears from the testimony as published in Lambert's report he (Allen) swore that I allowed Murphy to run around town and never locked him up. What are the facts as shown in his own handwriting upon the arrest book? "Murphy arrived at the city jail January 2, 1878, 4:30 P. M., given bail and released the same day."

The facts are that Murphy's attorney, the late Hon E. A. Cronin had his bond prepared, and the judge had fixed the amount of the bail, and they were all waiting and in readiness in the court room when I arrived with Murphy, and his bond was approved in less than half an hour by Police Judge Adams, and he was then allowed to go up town or any place he chose. So much for that portion of Capt Allen's testimony. He also says he had to furnish money for my delinquencies, to pay Judge Adams. This I deny and say it is false. I am the officer designated by the ordinances and the charter as the person to pay over all moneys collected for fines in city cases to the judge monthly and this I did during the time Allen was in office except three or four months of the time he was captain, and during these months he took the receipt from Judge Adams, in his own name, as I suppose he thought at the time he really was chief. I think captain, if you will refresh your memory about he $75 you speak about in your testimony that it was to replace money you used to carry the city election, for I know of my own knowledge, of money paid by you, to one man $25, and can at any time get his name.

You also say that I let men out of the jail and agreed to pay their fine, and did not do so. I deny this and defy you to name the prisoner whose fines I agreed to pay and did not.

I will now pay some attention to the gentleman from Yamhill. It was thought strange by some good citizens of this place, when I was removed from the position of captain upon the regular force, and quite a number wanted to know the reason at the time. When the question was asked me I would not say, as I did not wish to injure him, but as he is finding so much fault with the workings of the police department, I shall now give the public the cause of his removal as Mr. Lambert finds in him such a willing witness. This unfortunate Captain Belcher was a [illegible] but he had [illegible] while the police force was engaged in no cavalry charge—at a time when there was profound peace in the city and [illegible] there was nothing going on but a complaint made against him for dishonesty, in that [illegible]. The facts as alleged, and which can be substantiated by the testimony of more than one reliable witness were that a man whose name I think is J. G. Hapgood, was arrested one night by officer M. F. Sheehan, and brought to the city jail while Capt Belcher was on duty. Belcher as was his duty, searched the prisoner in the presence of Sheehan and officer Shea. Shea and Sheehan have both stated several times to Commissioner Connell and to me that Belcher put his hand into the prisoner's pocket three times, each time taking out some money and transferring it to his own, Belcher's pocket. The arrest book shows an entry in Belcher's handwriting of only 25 cents taken from the prisoner in this case. Officer Shea is dead, but Sheehan and Connell can and will testify to the facts as stated above.

I had given positive orders to the captains upon all occasions to search all men brought in, and to place the money upon the table and count the money in the presence of the officer or officers making the arrest and immediately enter the amount of money so taken in a column prepared in the arrest book especially for that purpose. One Richard Marble who was arrested told me, and he still claimed it to be true the last time I saw him, that he gave Captain Belcher three pairs of fine gloves, and I have never been able to find them. There was also a man arrested one night and brought to the city jail and with him was brought a demijohn partly filled with whisky from Bridget Gallagher's, and the demijohn was placed in a back room belonging to the jail where things are placed for safe keeping. Some time afterwards the demijohn was called for and I could not find it. I inquired of Capt. Allen, as he was on duty at the time I sought the information, what had become of the demijohn. He replied that it was not taken away while he was on duty. Of course then, as he and Capt. Belcher were the only two that were on duty, it must have been taken while Becher was on duty. I thought then I would find out if I could what had become of it. After I spent some time in looking for the demijohn, Bridget Gallaher came to the office and told me that Captain Belcher had been to her house and told her he had the demijohn at his house, filled with vinegar, and not to let the chief know anything about it." There was also a Baptist Chinaman by the name of "Young Gooey," and at the time he was brought to the jail he said that Captain Belcher had taken from him a fine tortoise shell handled pen knife and when he was tried and released he demanded his knife. Belcher drove him away from the jail some three or four times one forenoon and the Chinaman would come back again and make a fuss about his knife. Finally Judge Adams came in and heard the talk, and said he knew the Chinaman and did not think he would claim a knife wrongfully, and then Belcher paid for the knife. I, as well as Commissioner Connell at last came to the conclusion and became fully satisfied that all these things did not disappear, or walk off without legs, and so the captain's head fell with his martial cloak around him.

From the testimony of the gentleman from Yamhill and Capt. Allen they are trying to create the impression that I am running with gamblers, and that I let men out of the jail because this class of men have something on me. I deny this and say it is false, and I defy them to name the men of the character they have stated who frequent my office, and to give the names of the men that I have discharged for the reasons they have set forth.

A Mr. Eli Sorrell, who had the position of captain promised him in case Ham was elected police commissioner, stated that in a case tried some time ago, in the circuit court, a number of prominent citizens testified that my reputation was bad. I heard this testimony and he was the only witness that testified to such facts, and I suppose he thinks he is the distinguished citizens. I happen to have known this man for the last twenty years, and the only thing he ever did in that time to distinguish himself was a few years ago, on Columbia slough, when he performed a feat of pistol exercise upon his own person, though he appears to have been a bad marksman and shot too far to one side, only inflicting a serious flesh wound. It is lucky for him that he is not living under an English government, for if he was, a commission of lunacy would be issued and some one appointed to take charge of him and his effects, and he would not be allowed to run around loose there as he does in this country.

There has been some testimony tending to show that some men get their appointments from the police commissioners by the use of money. This I do not believe, as the present commissioners are gentlemen of honor and integrity, and I know that if there had been anything of this kind I should have discovered some indications pointing to the fact.

It is my purpose, in a few days, to present to the public a detailed statement, not only of my official acts and the workings of the police department since I have held the office of chief of police, but also the cost and expenses of the same, together with the revenue therefrom, and compare my administration with the previous conduct of the police department. I shall ask the public to contrast the expenses of this branch of the city government with the other departments. I am persuaded that if the other departments were conducted with as much economy as I have conducted this, the expenses of the entire city government would not exceed 4¾ mills on the dollar. Having been a member of the city council for nine years consecutively, prior to my taking the office of chief of police, I know whereof I speak. During my administration I defy my calumniators to point to a single grave or serious crime committed in the city, the perpetrators of which have not been arrested and brought to justice. In no case has any man guilty of any heinous crime escaped.

Another witness, who appeared before the Lambert committee under the assumed name of Howard, made some accusations against one of the police commissioners, and also testified that I directed him to electioneer for Mr. George Ham on the third Monday in last June. This statement will hardly be accepted as truth by the 500 or 600 voters of the city who know that I did not take much stock in Mr Ham, and did not desire his election. However, it may be regarded of weight in the light that, had I wished to defeat Ham, I could have adopted no surer way of doing so than to have procured Howard to work openly for his election. Howard's electioneering would only have added to the overwhelming majority of Ham's opponent.

It is unfortunate that the common council should persist in placing a man utterly incompetent, in point of ability, and unreliable in character, in the position of assistant superintendent of streets and insists that the police commissioner should appoint him special policeman to work the city prisoners. This action on the part of the council necessitates the expenditure of $900 per annum of the taxpayers' money, which might be saved if they would select a man not so objectionable to the commissioners, and who would be of some real assistance to the superintendent of streets, in serving notices and other matters, besides working the prisoners. As it is the prisoners are doing nothing, and the assistant superintendent of streets is helping them, because the commissioners believe him unfit to take charge of them, and will not therefore entrust him with that duty.

It is scarcely worth while to dwell longer upon Mr Lambert's report. I think that could he have secured an amendment to the city charter so as to make it read "My son in law, Wm A Smith, is hereby made a life member of the police force of the city of Portland, Oregon at a salary of $90 per month in gold coin, whether he does his duty or not," he would have been entirely satisfied. Then he would no longer have to invade the sacred temples of religion in search of a good man to take his place. It is rare, indeed, that politicians manifest such spells of religious feeling. In my experience I have never known them to be thus affected for the good of the community, until after their own political hopes had met with some Waterloo defeat. Then they ponder upon the weakness and frailty of man, the imperfections of human government and institutions, and the innate depravity of the human race, and lastly over the moral grandeur of church over civil government. Finally, these disappointed politicians become devout worshippers of the higher law that exalteth the abased.

A PLUCKY WOMAN.

MRS CHARLES MCDONALD FIRES FIVE SHOTS AT A BURGLAR—THE FELLOW GETS A WARM RECEPTION.

About 12 o'clock Monday night an unsuccessful attempt was made to burglarize the house of Mr Charles McDonald, which is located near the corner of L and Tenth streets, in East Portland. Mr McDonald is engineer on the express train and does not remain at home during nights. Mrs. McDonald was sleeping up stairs with her two children, when she was aroused from her slumber by the barking of a small dog which she kept in the room. This caused her to get out of bed, throw on a wrapper and come down stairs. She observed the precaution to take a revolver which she kept in the bedroom. Descending the stairs noiselessly, she reached the first floor. Pausing for a moment she heard some instrument of iron fall on the porch in front of the windows. She stood transfixed with fear for a moment, but regaining her self possession resolved to give the intruder a tropical reception. A moment later and she saw the curtain of one of the windows moving and without an instant's delay the plucky woman began shooting. In rapid succession she discharged five shots. At the first shot the burglar dropped below the window sill and escaped. All the five shots passed through the glass very near the same place, not one of them being one foot apart. After emptying the pistol Mrs McDonald shouted for help which speedily brought to her assistance Mr. Miller, one of her near neighbors. However, the burglar had made good his escape.

An examination of the premises revealed the fact that the burglar had endeavored to raise several of the windows by prying them up with a small iron bar. Failing to accomplish this, he broke one of the panes of glass, through which he inserted his arm and endeavored to reach the spring and thus hoist the sash. It was this movement which caused the curtain to rustle that was the signal for Mrs McDonald to commence firing.

From the tracks on the outside it appears that the thief had a very close call and it is not improbable that he received one or more of the shots in his shoulder. He was barefoot, and a measurement of his tracks showed his feet to be 10½ inches long and 4½ inches wide. The burglar must have had a very narrow escape. Few women would have had the pluck to give a burglar such a warm reception. Mrs McDonald has set an example worthy of emulation.

MODERN MIRACLES.

Dr. C. M. Wood, the well-known healer returns to his practice in Portland, after a rest of six months. His great cures of men women and children, some of which were published in THE DAILY and WEEKLY OREGONIAN during last winter, has brought hundreds of letters from anxious sufferers desiring information as to the permanency of his cures. In order to satisfy those desiring such information, he will publish from time to time through THE OREGONIAN the original certificates of cures, and when possible, to communicate with such patients, a certificate of their present condition. $1,000 forfeited if every cure he has ever published was not genuine as stated.

Dr. Wood

Will heal the sick of chronic diseases at corner of Washington and Front streets, Portland. All curable diseases successfully treated when every other method fails. Dr Wood cures by animal magnetism, and can point to the most wonderful cures ever performed by this method. *No medicine, no surgical instruments,* no pain whatever.

Another of Dr. C. M. Wood's Marvelous Cures.

PORTLAND, April 27, 1878.

To the citizens of Oregon I make the following statement for publication: On the 22d of February, 1878 my little boy William, then 3 years and 6 months old, was stricken with total paralysis at 12 o'clock at night, for which I could assign no reason whatever. He remained totally helpless from the body down, for two days, with no apparent change. He had a high fever, limbs badly swollen, ate nothing, and so great was his pain that his night clothes could not be removed from him as the least movement caused the most excruciating pain. In this hopeless condition I took him to Dr. C. M. Wood, Magnetic Physician, of Portland, who perfectly restored our boy in six treatments (consecutively), and at this writing he remains perfectly well and hearty, and has never had a symptom of the disease since.

SARAH A SAMMONS,
SPENCER SAMMONS.
EAST PORTLAND, Dec 2, 1878.

This is to certify that my little boy is well at this time, and has been well since you treated him, and is growing fast. SPENCER SAMMONS.

Dr. Wood cures the following diseases: Chronic Liver Complaint, Disease of the Kidneys, Dyspepsia; Indigestion, Spinal Complaints; Pains in Side, Back, Shoulders, Hips and Chest; Headache; Neuralgia, Heart Disease; Rheumatism, Chronic and Acute Female Diseases and Irregularities, Sore and Weak Eyes, Deafness, Ringing in the head, Bronchial Affections, Chronic Catarrh, and General Debility, caused by any of the above afflictions, at his rooms, southeast corner of Washington and Front streets, over O'Connor's store, up stairs.

DR. MINTIE'S NEPHRETICUM

Works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, are cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back, side and loin are cured, when all other medicines have failed.

See what the druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills.

We have sold a large amount of Dr. Mintie's medicine, the English Dandelion Pills; also the famed Nephreticum, and in all cases highly recommended. John A. Childs druggist, Second street, Portland, Oregon. C. H Woodard & Co., Druggists, cor First and Alder, Portland, Oregon, Messrs. Abrams & Carroll, Druggists, No. 3 and 5 Front, San Francisco. "We regard Nephreticum as the *best* Kidney and Bladder remedy before the *Public.*" All Druggists keep *them.*

For all derangements of the Liver,
Use Dr. Mintie's English Dandelion Pills.

For Biliousness and Dyspepsia,
Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague,
Use Dr. Mintie's English Dandelion Pills.

Every family should not fail to keep the Dandelion Pills on hand.

WOMEN'S HOME.

Women and girls seeking employment can find at the Women's Home, 102 Columbia street, a pleasant boarding place at moderate rates, either temporary or permanent. The matron gives her personal attention to providing places for those who apply. Persons desiring servants, nurses or seamstresses are requested to apply.

Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequaled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

Dr. Adams invites all who are afflicted to call on him and be satisfied, however complicated the case may be. Consultation free

NO FAILURES ARE RECORDED of the famous outward specific, HENRY'S CARBOLIC SALVE. It is invariably successful in healing sores, curing eruptions, removing proud flesh, and overcoming suppuration and inflammation. These sanative results it accomplishes without leaving any scar or discoloration of the skin. As a local application for chronic Rheumatism, sore throat and tightness of the chest, it is also highly spoken of. Sold by all druggists. Beware of imitations. Ask for Henry's Carbolic Salve, and take no other

CALIFORNIA

ROOT TEA!

The Reliable Cure for Chronic Complaints of Liver and Kidneys.

THE ONLY THOROUGH BLOOD CLEANSER. The most pleasing, grateful and satisfactory Strengthening Balsam known, constantly effecting surprising cures of wasting or debilitating diseases and complaints arising from weak or impure blood, feeble circulation or impaired digestion, when all modes of treatment fail. Is of great benefit in threatened or actual consumption and heart disease, owing to its peculiar and great influence on the circulation. For the ills and weaknesses of women it is Nature's most suitable and reliable remedy.

LIVER--KIDNEYS.

Its regulating and strengthening action on these organs is different to and more desirable than that of any article heretofore in use, for indigestion, biliousness, etc., as a tonic, anti-malarial, etc., it is unequaled, while in chronic complaints it gives relief when all other remedies fail, and is frankly acknowledged to be the *only* cure for many chronic complaints of a complicated nature.

CATARRH.

The success of the CALIFORNIA ROOT TEA in curing Catarrh is proverbial and surprises many who do not understand the nature of this terrible disease, which in most cases can be permanently cured only through the blood by a thorough course of this vegetable remedy, conceded to be the only thorough and permanent blood cleanser known, a course of it completely eradicating for all time the most virulent types of blood and skin diseases, rheumatism etc. All who use it, leading druggists and physicians gladly attest its great sterling worth.

Sold in its truly vegetable form, in packets at $1; each packet makes a quart of rich balsam, of which the dose is two spoonsful three times daily, making its cost much less than other medicines. Make like tea or put in wine, etc: pleasant to take when nicely sweetened. It is nature's life-bearing balsam—its success assured in advance in all cases.

Ask for it and take no drugs or disguised mercury. Six pkts $5 00.

FELLOWS'
HYPOPHOSPHITES.

For several months past I have used FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES in phthisis chronic bronchitis, and other affections of the chest I have no hesitation in stating it ranks foremost among remedies used in those diseases. E. S. EARLE, M. D, St John N B

I strongly recommend Fellows Compound Syrup of Hypophosphites to all who suffer in any way from diseases or weakness of the lungs, bronchial tubes, or from general debility.
J H. W SCOTT, M. D, Gagetown N B

Fellows' Compound Syrup of Hypophosphites acted with expedition and entire satisfaction in a case of aphonia, which failed to yield to regular treatment. S JACOBS, M. D, Lunenburgh, N B

No hesitation in recommending Fellows' Compound Syrup of Hypophosphites for general debility, or any diseases of the lungs.
H G ADDY M D

In restoring persons suffering from dyphtheretic prostration and cough following typhoid fever Fellows Compound Syrup of Hypophosphites is the best remedy I ever used

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR BRENAN has made a specialty in the treatment of the following diseases, Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors through pretended friendship for the patients Look out for them, they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR PAUL M BRENAN, the *Medical Lecturer*, and read his sign on his door

To the Trade.

Gentlemen!—We feel it a duty to ourselves and to the Trade generally to state that
NO GRAND PRIZE
Was awarded at the Paris Exposition 1878 for Spool Cotton, notwithstanding all statements made by our competitors to the contrary The award of a
Gold Medal
TO
CLARK'S O. N. T.
Was the highest award given for Spool Cotton
The Official List of Awards is our authority for the above statement.
We would also state that
CLARK'S O. N. T.
Was the ONLY brand of Clark's Spool Cotton that received any award at the Paris Exposition 1878
